

Action For Insects Pledge

What will you do to reverse the decline in insects and help nature recover?

If we all make a small commitment, together we can make big changes. Make your pledge using one of the insect templates in this resource.

Colour it in and cut it out.

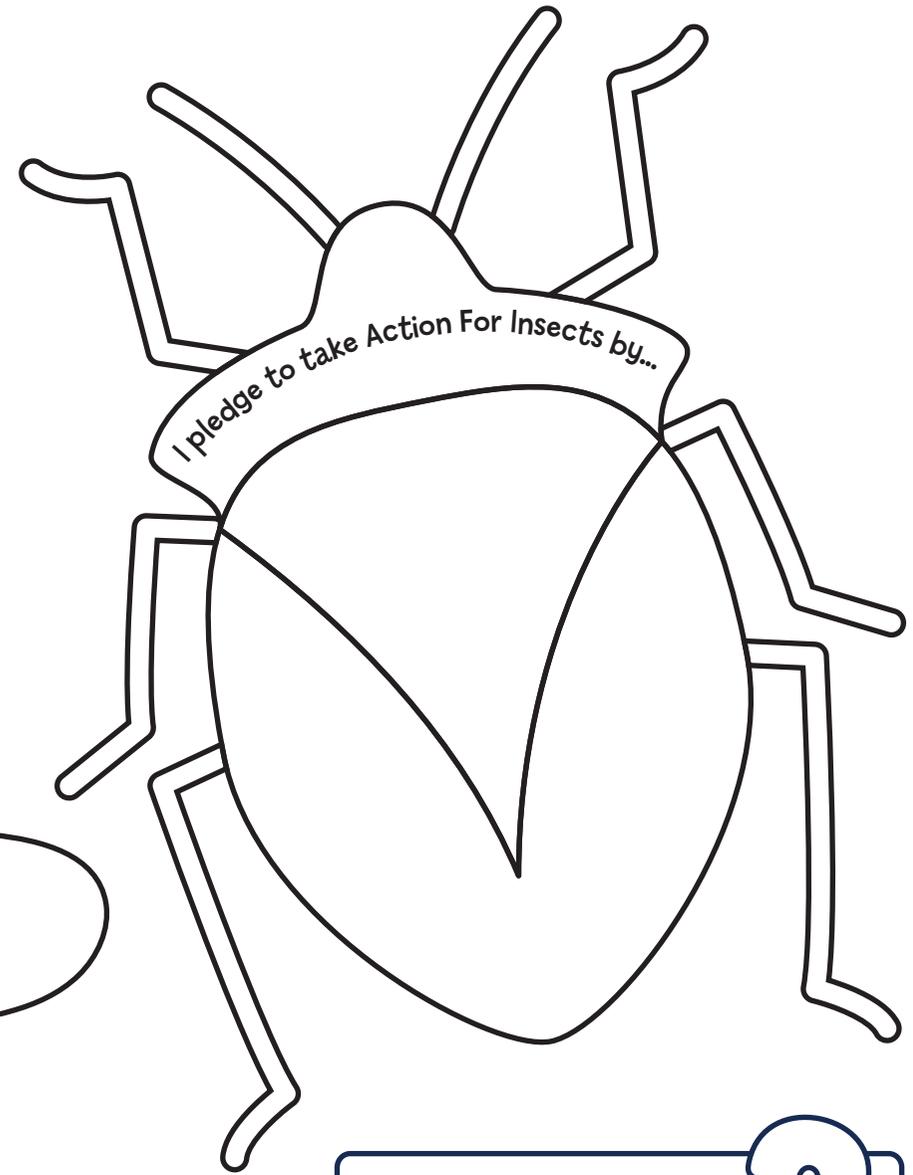

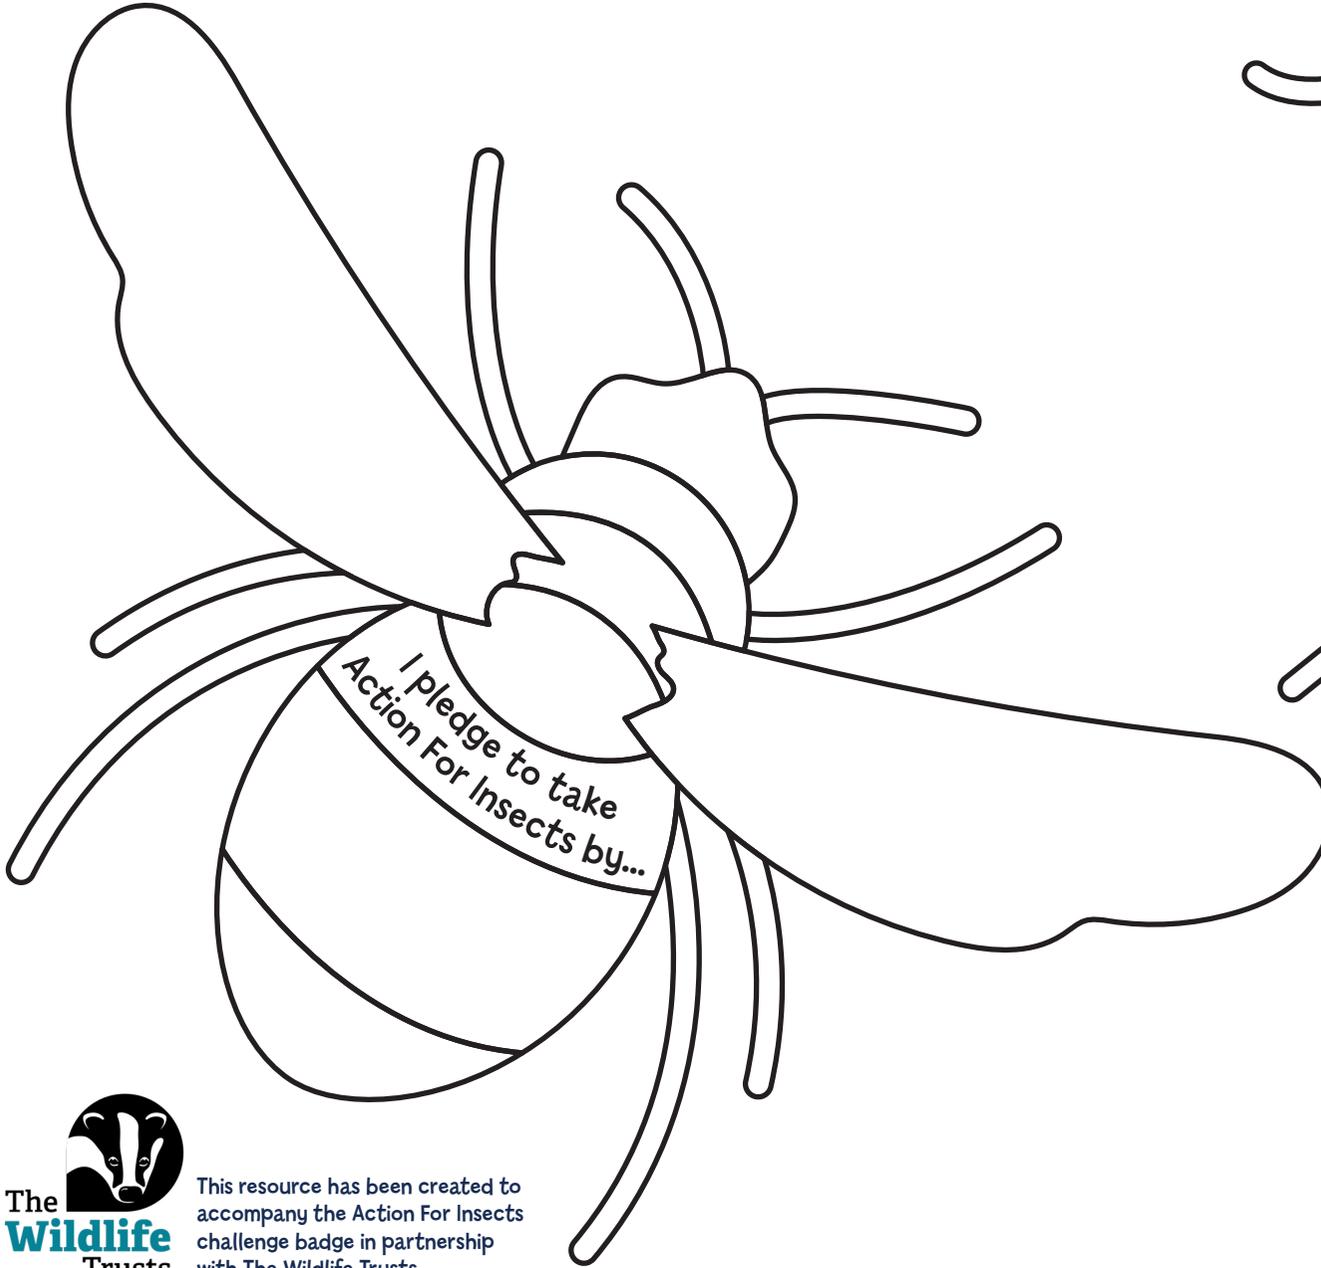

Here's an Idea!

Why not create a display in your local community to help raise awareness of Action For Insects and how we can help.

This resource has been created to accompany the Action For Insects challenge badge in partnership with The Wildlife Trusts.
