

# Flappy Clownfish Races

Clownfish aren't very good swimmers and they don't venture far from their anemone homes. How far can you help your Clownfish swim? Why not race against a friend or the clock?

## How to play...

1. Each player or team has their own Clownfish
2. Using a newspaper, magazine or wad of paper, each player or team propels their Clownfish across the surface without touching the fish. One way to do this is to waft the newspaper up and down behind the fish to 'blow' the air under its tail and push it forwards.
3. Why not have different rounds of the race to see who's Clownfish can swim the furthest, fastest or most flamboyantly, for example?

Why not use Page 2 and colour in your Clownfish before you start?  
You could even have a different colour for each team!

Alternatively, you could draw your own Clownfish on a piece of scrap paper and cut around it.

Print a sheet for each player or team and cut out your Clownfish!

Did you know that a group of Clownfish is called a school?

# Flappy Clownfish Races - Colour Your Own

Clownfish aren't very good swimmers and they don't venture far from their anemone homes. How far can you help your Clownfish swim? Why not race against a friend or the clock?

## How to play...

1. Each player or team has their own Clownfish
2. Using a newspaper, magazine or wad of paper, each player or team propels their Clownfish across the surface without touching the fish. One way to do this is to waft the newspaper up and down behind the fish to 'blow' the air under its tail and push it forwards.
3. Why not have different rounds of the race to see who's Clownfish can swim the furthest, fastest or most flamboyantly, for example?

Print this sheet and colour in your Clownfish before you cut it out. You could even have a different colour for each team!

Alternatively, you could draw your own Clownfish on a piece of scrap paper and cut around it.

Why not count this towards your Clownfish Challenge badge?
