

# Fruit and Vegetable Allotment Labels

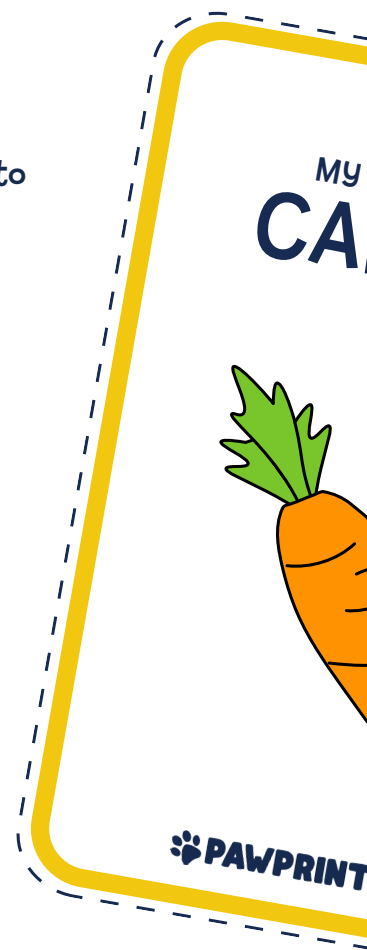

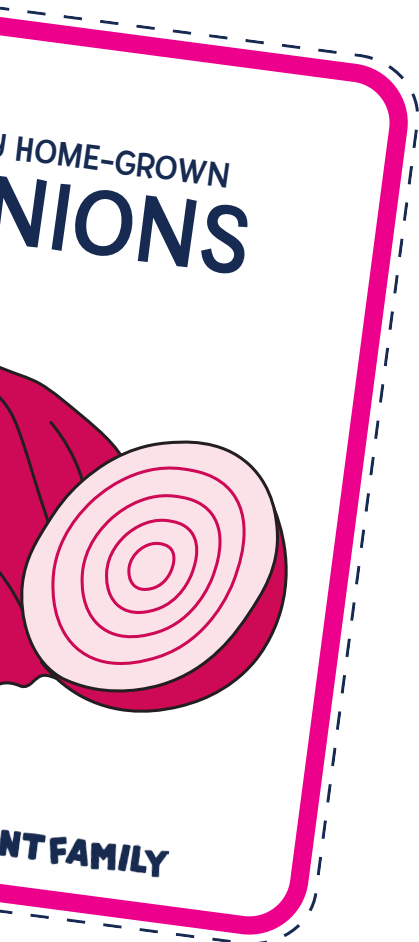

Design your own allotment labels to help organise your home-grown crops.

## You will need:

1. Printed pages from the Fruit and Vegetable Allotment Labels resource.
2. Scissors
3. Card
4. Laminating sheets
5. Super glue
6. Lollipop sticks

## To make your fruit and vegetable labels:

1. Stick each page onto card.
2. Add your own drawings to the cards - you can use one of the pre labelled cards or come up with a fruit or vegetable of your choice - based on what you are planting in your allotment.
3. Laminate your cards.
4. Cut out your laminated cards.
5. Use super glue to attach a lollipop stick to the back of each card.
6. Leave to dry.
7. Plant your fruit and vegetables of choice and use the markers to help you to remember where you have planted them.
