

La Pirinola Spinner

To Make Your Spinner:

1. Cut out the template below along the dotted line and then fold along the solid lines.
2. Glue/stick the tabs on the horizontal sides to the sides of the back of the hexagons.
3. Glue/stick the tab on the left to the 'Todos Ponen' side to create a 6-sided drum.
4. Push a pencil through the cross top and bottom and get ready to play!

To Play Pirinola:

1. Each player gets 10 chips/jelly beans to start.
2. Everyone puts 2 chips in the centre, this is called 'The Pot'.
3. Choose who will go first.
4. The first player spins the pirinola like a spinning top. They then follow the instruction that it lands on.
5. Once the first player's turn is complete, take it in turns.
6. If the pot only has one or two chips in it, everyone must put 2 chips in at the same time. If a player cannot put 2 chips in, they are out of the game.
7. Once you are out of chips you are out of the game. Play until you have a winner.
8. Winning: The last player who has chips is the winner.
