

Lawn Mower Madness

Transform Percy's lawn mower into a brand new invention that doesn't cut grass, but does something wild and wonderful instead! Maybe your mower will have a chocolate dispenser or camouflage button on the back...

Why not...
Label up each feature of your lawn mower so that Percy knows exactly what it does!

Here's an idea!

Use junk model materials such as old cardboard boxes and toilet roll tubes to make a 3D model of your lawn mower! Decorate with craft materials to finish.
