

Paper Snowflakes

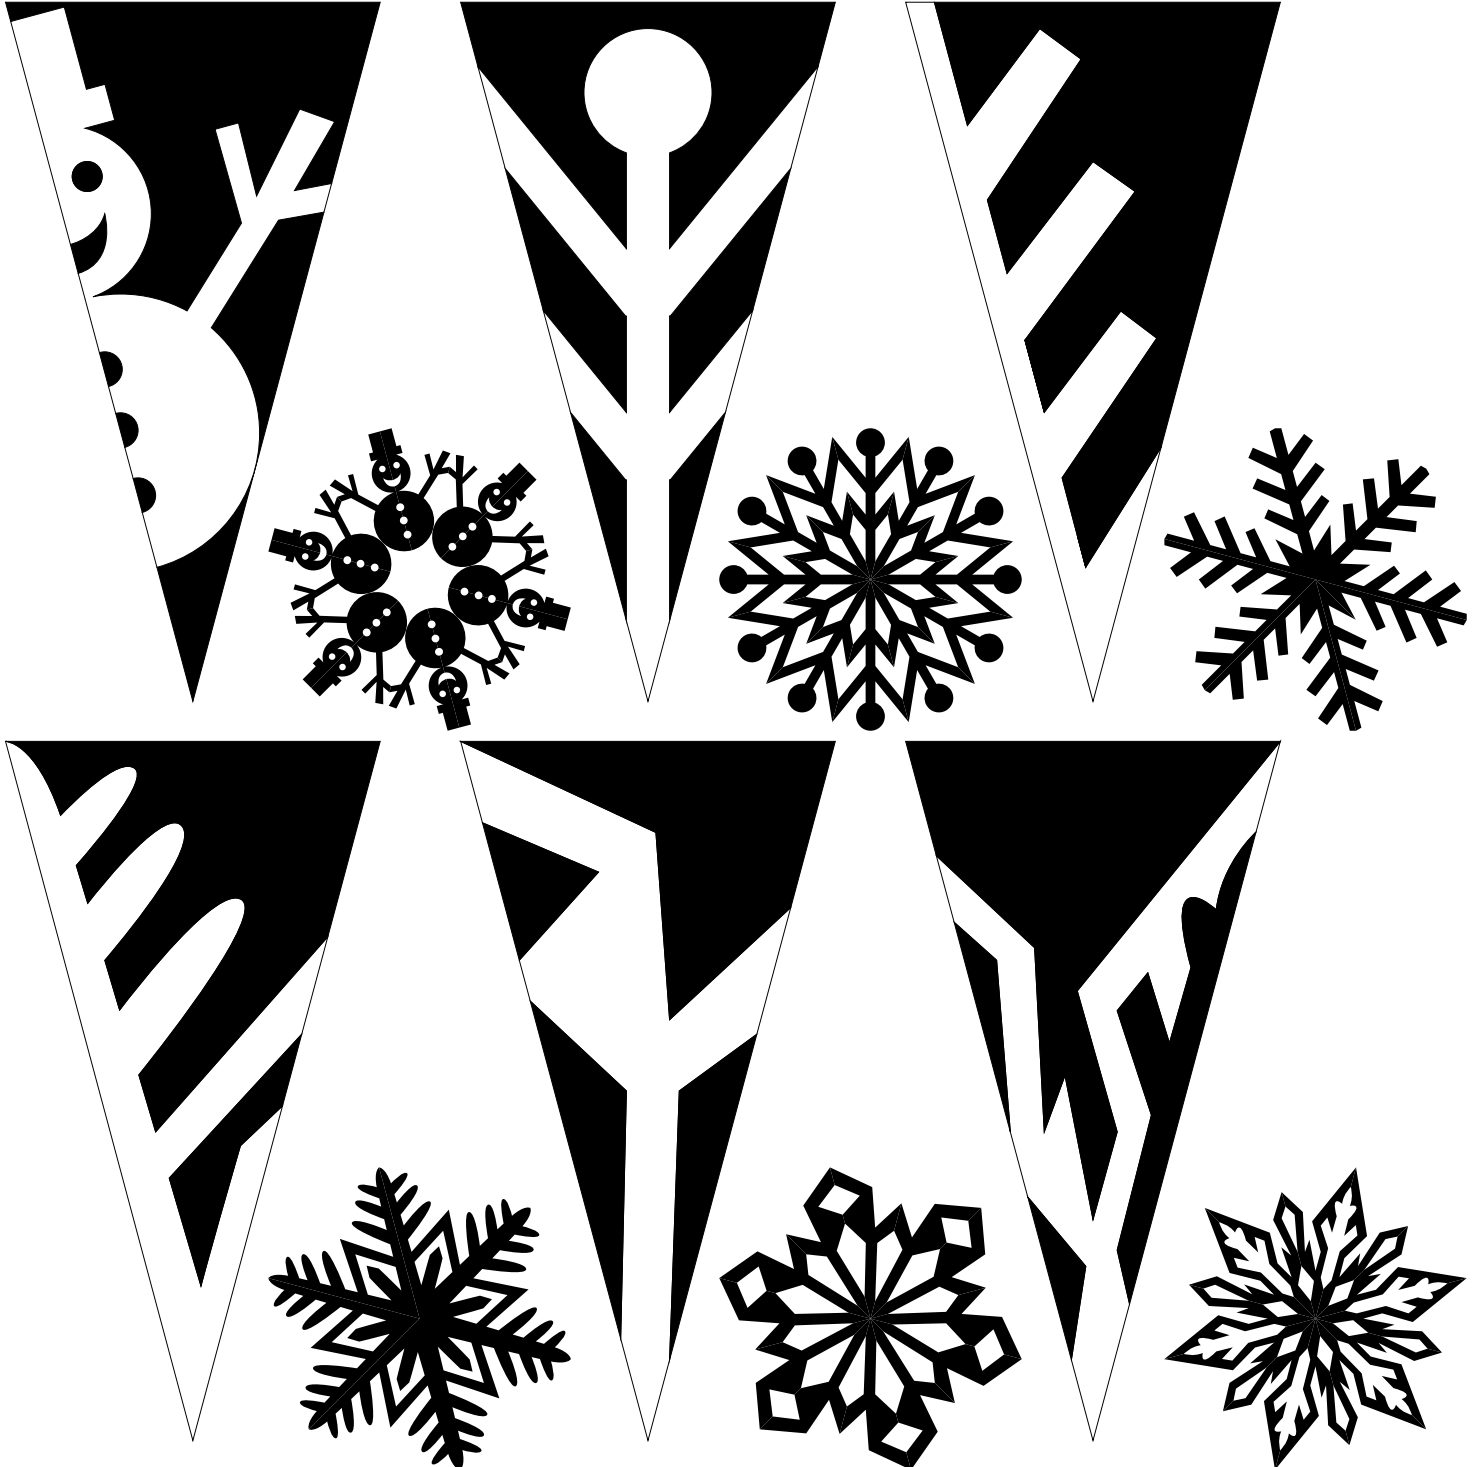

This resource will make 6 different snowflakes of varying difficulty. Choose whichever you like.

You will need:

1. Templates from the following pages or squares of paper
2. Scissors

To make your snowflakes (using the templates):

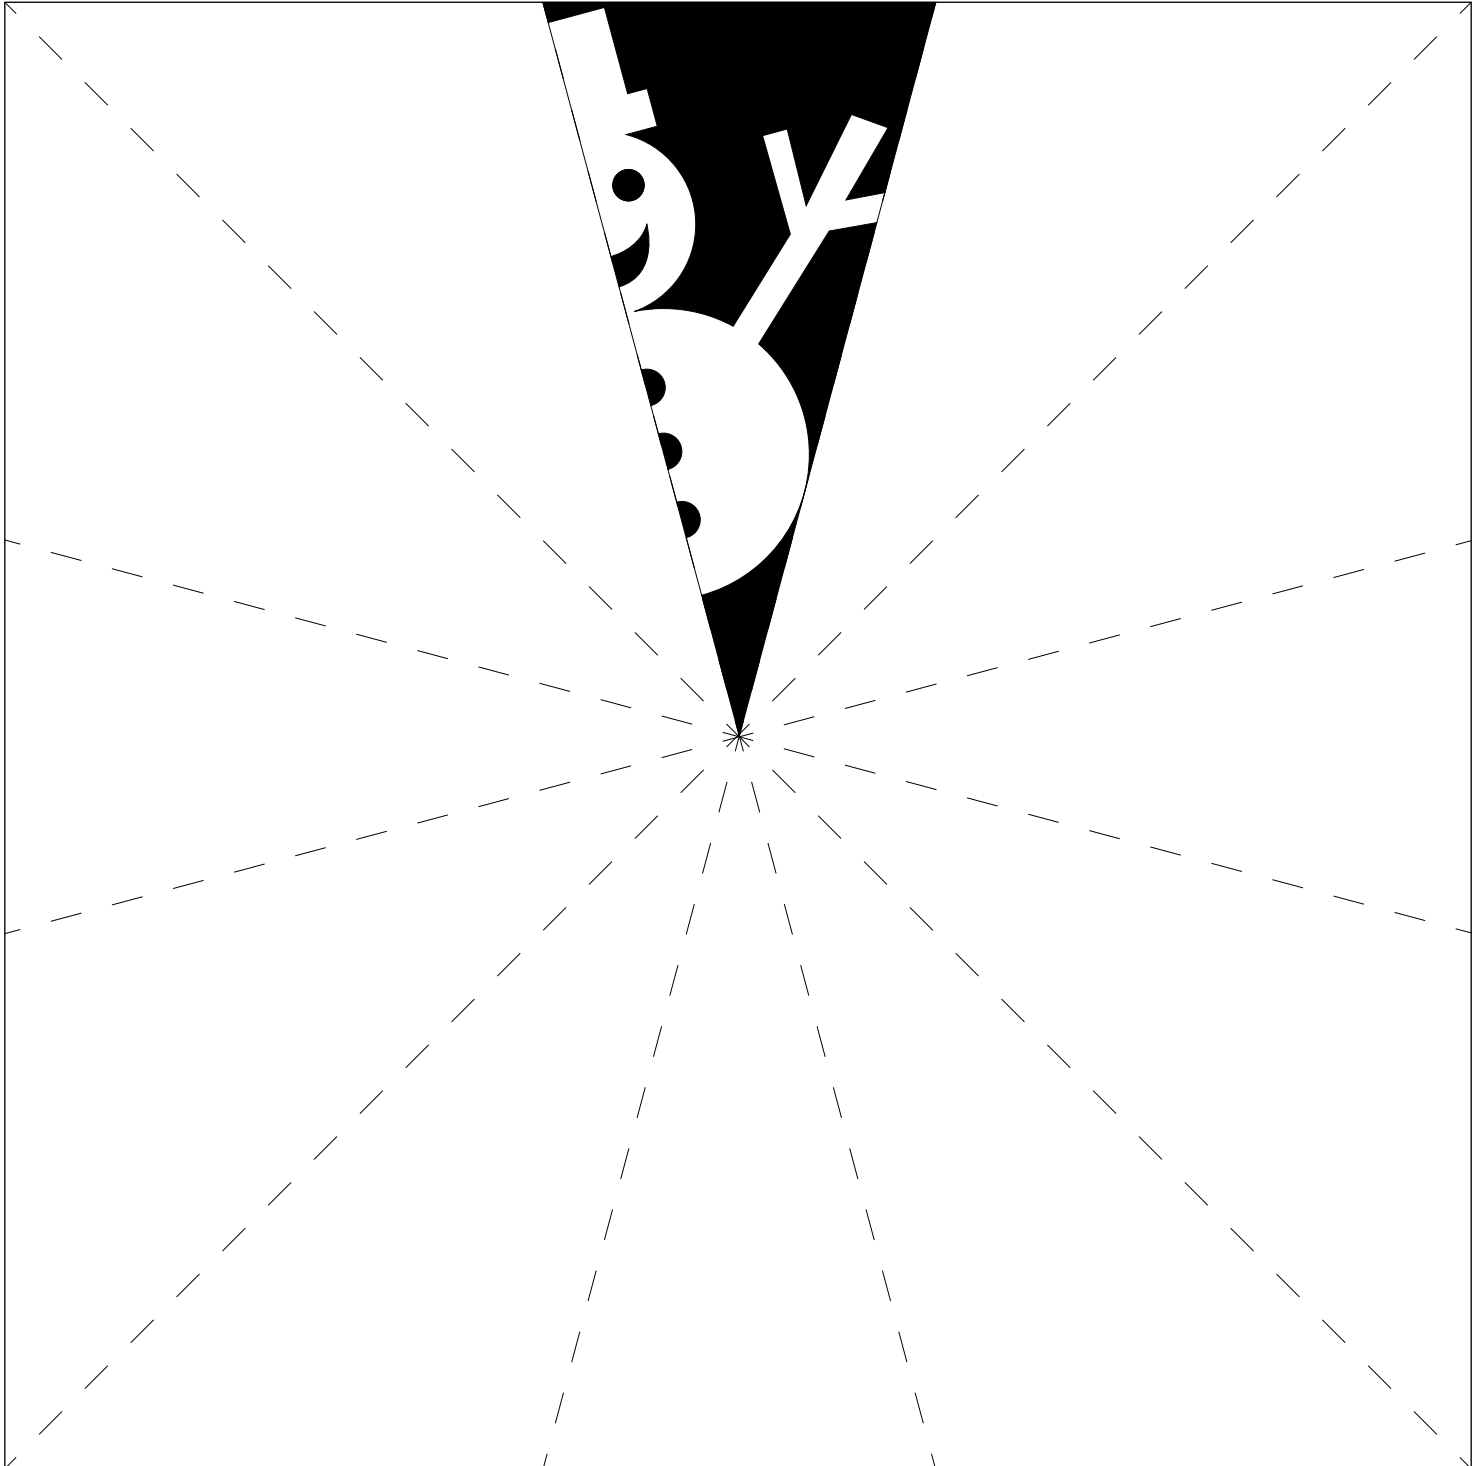

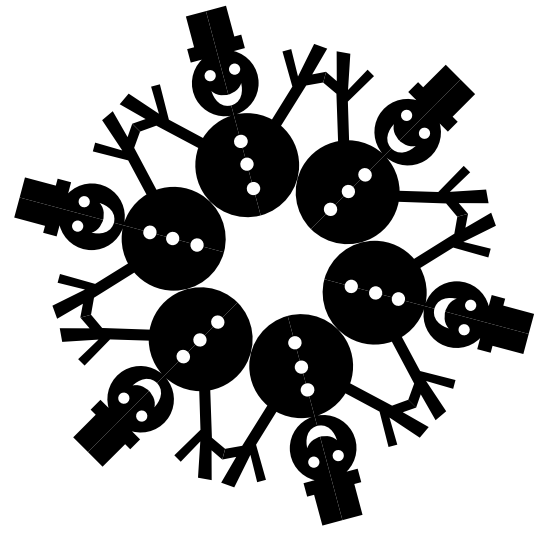

1. Cut around the solid outer line of your square and fold along the dotted lines, diagonally from corner to corner and then along the additional lines so your template is on the top.
2. Cut away the black area of the template. DO NOT cut along the folded edges.
3. Unfold your snowflake and enjoy!

Snowman Snowflake

Instructions:

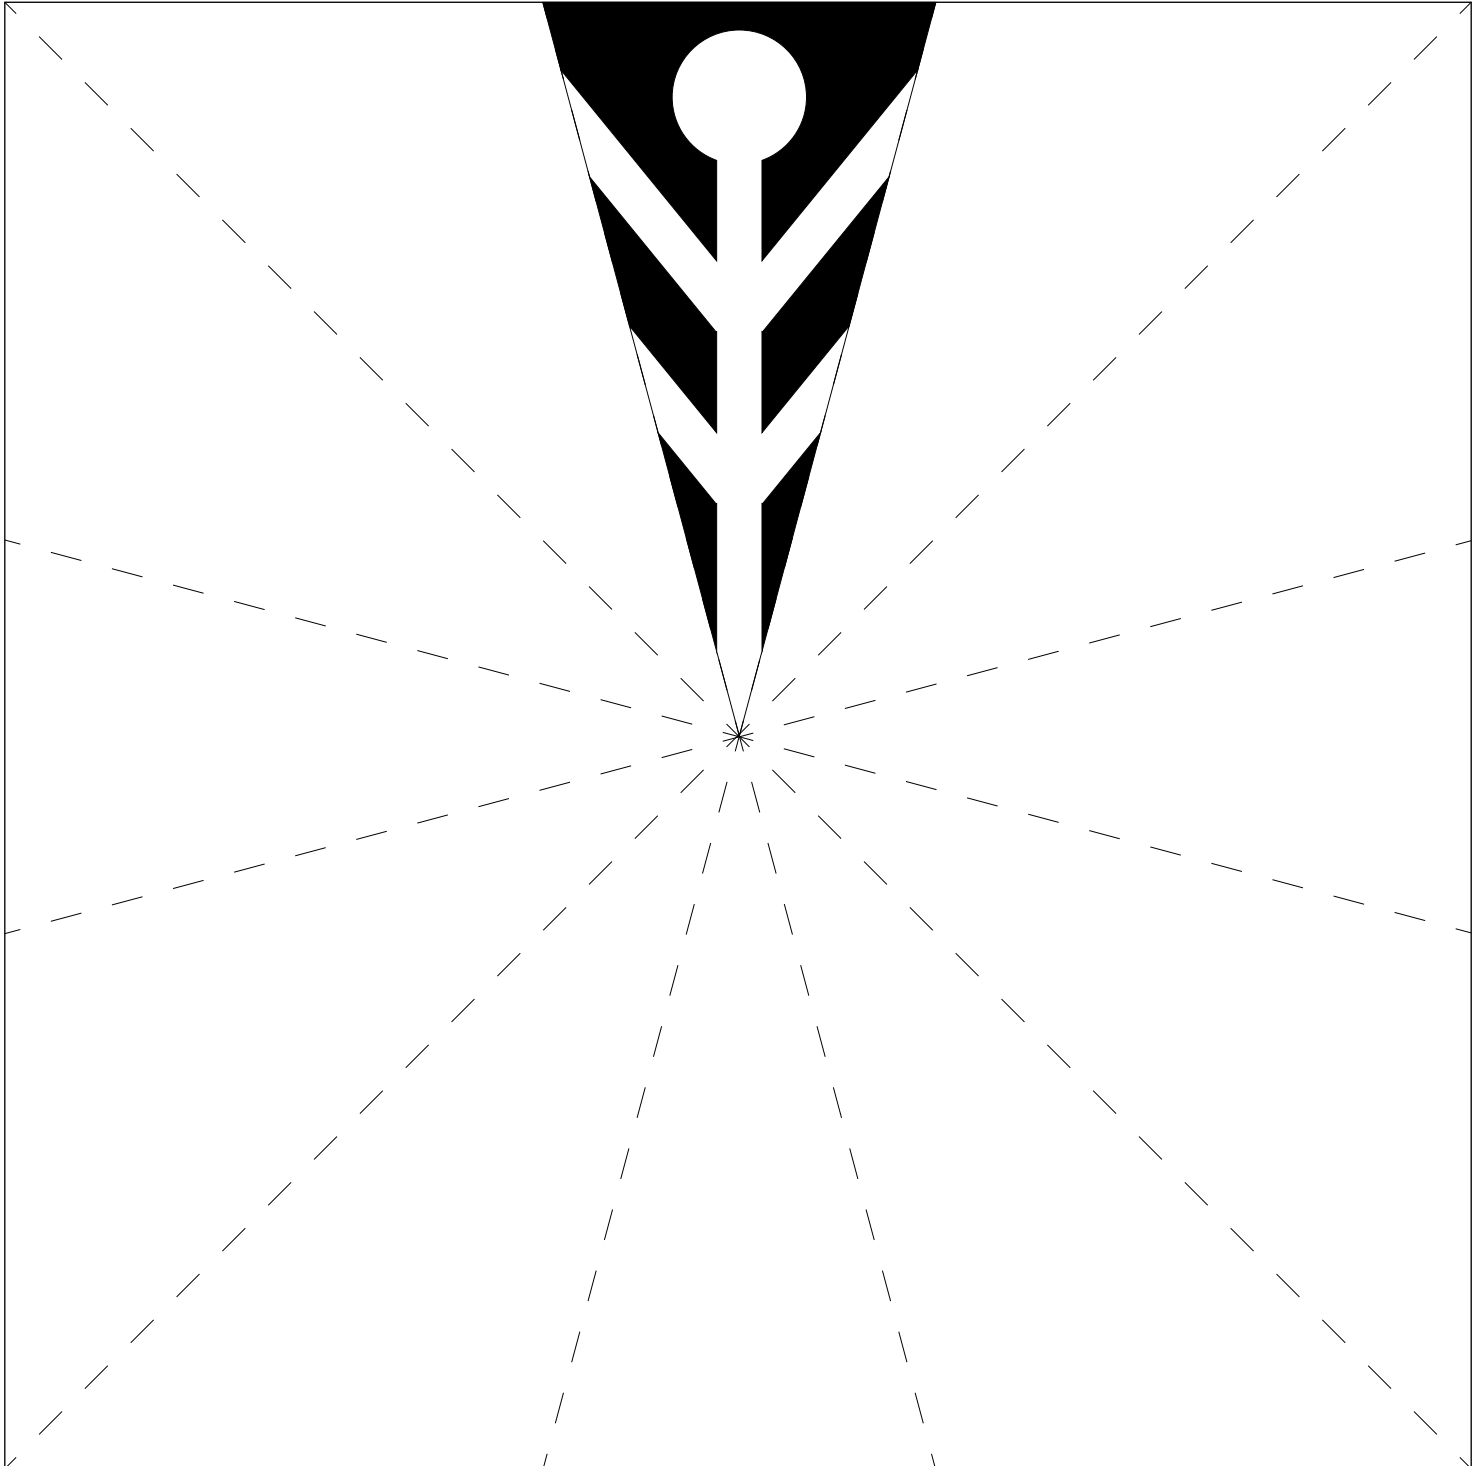

1. Cut around the solid outer line of your square.
2. Fold along the dotted lines, diagonally from corner to corner and then along the additional lines so your template is on the top.
3. Cut away the black area of the template. DO NOT cut along the folded edges.
4. Unfold your snowflake and enjoy!
