

The Freezing Experiment

What happens when different things are placed in the freezer? Make a prediction, investigate your samples and record what changes you notice. Why not have a go placing each sample in an ice cube tray next to one another so they are easier to compare?

Sample	My Prediction	What Happened?	What I Learned
Water			
Salt Water			
Milk			
Fruit Juice			
Honey			
Oil			
Dish Soap			
Yogurt			
Jam			

The biggest surprise was: _____

The thing that changed the most was: _____

I think things freeze differently because: _____

The Freezing Experiment - Blank Table

Use this table to select your own things to test. Make a prediction, investigate your samples and record what changes you notice. Why not have a go placing each sample in an ice cube tray next to one another so they are easier to compare?

Sample	My Prediction	What Happened?	What I Learned

The biggest surprise was: _____

The thing that changed the most was: _____

I think things freeze differently because: _____
