

# Have a water night.

## For leaders

Have a night full of watery fun (best on a warm evening). Have wet sponge relay races, play 'splat' with water pistols or make a slippery slide with an old piece of tarpaulin, a hose pipe and plenty of washing up liquid. As a leader the materials for a water night are cheap, lots of the bargain shops have sets of water pistols for £1 and lots of young people will have their own at home. This is a great night to invite parents to join in on the fun. If you wanted to make it a little more serious you could link to the lack of water around the world and the number of children who walk miles for water everyday
