

The average camel can drink 200 litres of water in 3 minutes. Find out how much water you should be drinking and record your daily intake for a week. Did you do better or worse than you thought?

### Did you know

Camels don't actually store water in their humps, they store fat. They use their fat reserves when food is scarce but they can go for long periods without water.

Age 14 - 18

Age 5 - 7

Age 7 - 11
