

Candy Canes and Trees - Snakes and Ladders

A twist on the traditional Snakes and Ladders board game. Have fun sliding and climbing around the board! Why not use chocolate coins or other Christmas sweets as counters?

How to play:

- 1. Place your counters on 'Start'.
- 2. Take it in turns to roll the dice and move your counter the number of spaces that you roll (e.g. rolling a 3 would mean you have to move 3 spaces.)
- 3. Win the game by reaching the 'Finish' square before your opponent!

The person who rolls the highest number on the dice gets to play first.

Slide down the candy canes.

Climb up the trees.
