

Mardi Gras Beads - Page 1

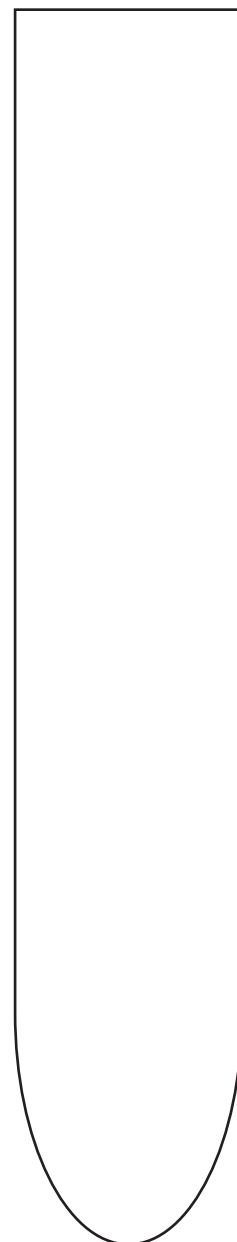

Make your own paper bead necklace fit for a festival! Print the coloured strips/decorate the blank strips and then cut them out. Fold the top straight edge of each strip over (colour on the outside) and roll each strip over a cocktail stick into a bead. Glue the bead together.

Always roll each bead from the top straight edge.

Make sure the colour is on the outside when you roll.

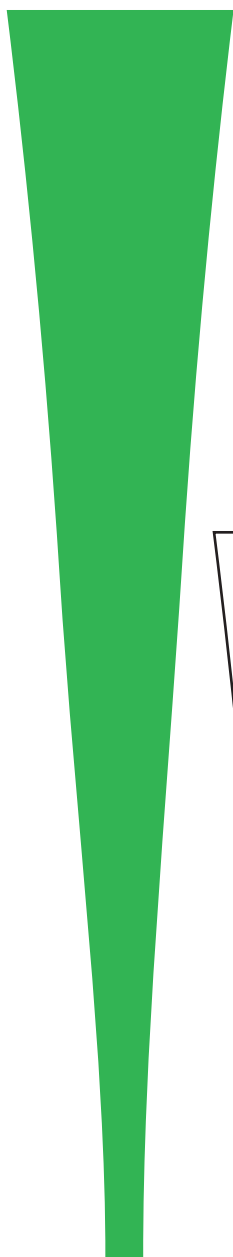

Print on card for sturdier beads.

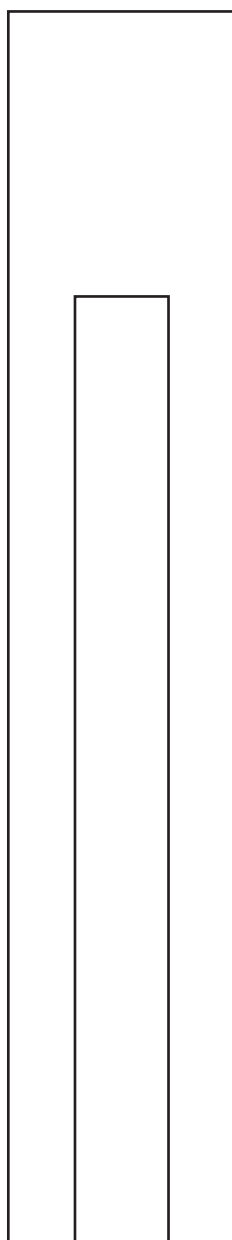

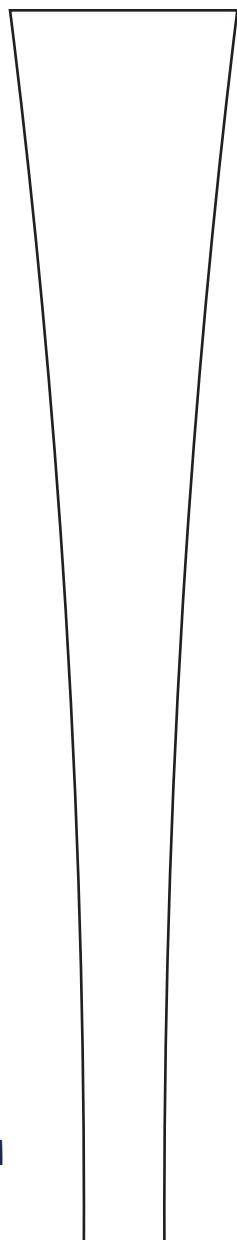

Thread your beads onto thin string to finish!
