

# Norman Castles Map

Use felt tips, marker pens, flags or buttons to mark up all of the places that Norman castles still stand in England today. Label your castles with their names too if you like!

Colour me in! You could even colour in the different counties so that you know where the castles are.

**Here's an Idea!**  
Why not create your own key in the blank space above, marking castles still standing in one colour, and those no longer standing in another?

Mark your home town on the map of England too to see which castles are local to you.
