

# The Smeds and The Smoos Colour Mixing - Page 1

Smed and Smoo... Red and blue! Mix the primary colours with paints and then paint the last splodge in the newly mixed secondary colour.

The  
Smeds and  
The Smoos™

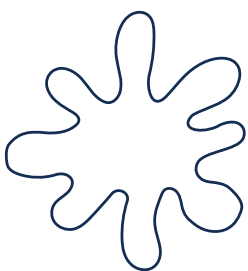

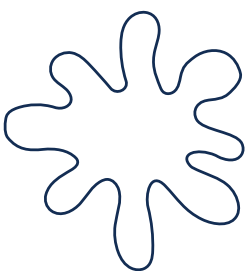

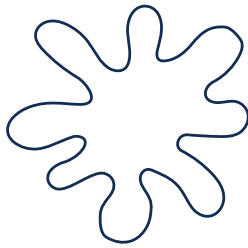

Paint one splodge in red, one in blue, then mix them together in a paint palette and paint this splodge in the mixed colour.

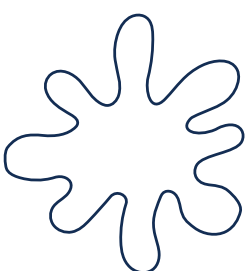

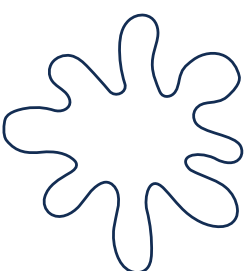

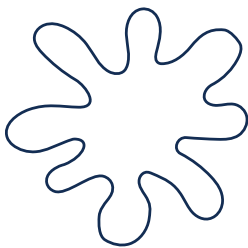

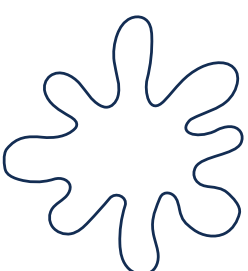

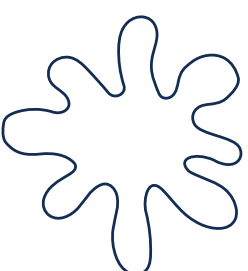

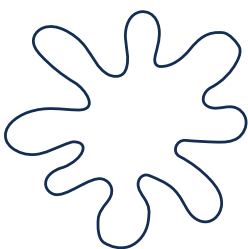

# The Smeds and The Smoos Colour Mixing - Page 2

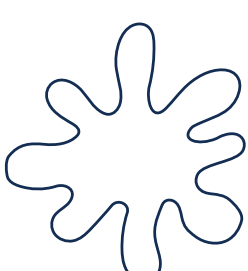

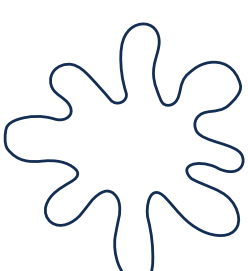

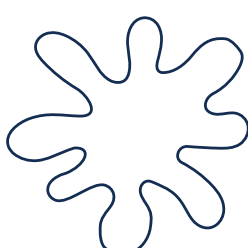

Use these blank splodges to experiment with mixing different paint colours! What happens when you mix the secondary colours?!

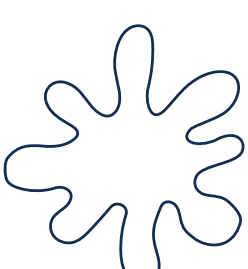

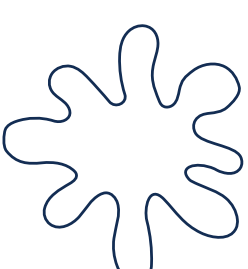

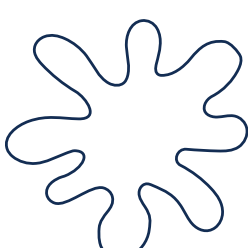

The  
Smeds and  
The Smoos™
